Land Acknowledgement

We affirm that we are all treaty people and acknowledge that the York Region District School Board is located on the lands of two treaties. These treaties have been signed with the Mississaugas of the Credit First Nation and the First Nations of the Williams Treaties who are: the Mississaugas of Alderville, Curve Lake, Hiawatha, Scugog Island; and the Chippewas of Beausoleil, Rama, and Georgina Island who is our closest neighbour and partner in education.

To honour this agreement we will take up our responsibility to be respectful of their traditions, knowledge and inherent rights as sovereign nations. We will respect their relationship with these lands and recognize that our connection to this land is through the continued relationship with these First Nations, and we acknowledge our shared responsibility to respect and care for the land and waters for future generations.

Role of School Council

3.1.2. THE ROLE AS DEFINED BY THE YORK REGION DISTRICT SCHOOL BOARD

The policy statement for the Board's policy on school councils provides a clear sense of the role and reads as follows:

- The York Region District School Board believes that collaborative and inclusive partnerships, among schools, families and their communities, are essential to improving student learning and increasing a shared sense of accountability for public education.
- Strong partnerships are built from a common vision and common goals, nurtured through regular communication and meaningful consultation, involving all members of the school community [through engagement and inclusion].

Role of School Council

- School councils play an important role in building school, family and community partnerships by providing input into relevant Board and school-level decisions and by encouraging the involvement of all members of the school community in support of student learning, achievement and well-being.
- While the primary role of a school council is focused within the school community, the Board values advice from school councils on the development and review of policies and other matters of concern to councils.
- The full School Councils policy and procedure can be viewed on the Board website

Let's start with the first
set of slides

“

Quotations are commonly printed as a means of inspiration and to invoke philosophical thoughts from the reader.

This is a slide title

- Here you have a list of items
- And some text
- But remember not to overload your slides with content

Your audience will listen to you or read the content, but **won't do both.**

Big concept

Bring the attention of your audience
over a key concept using icons or
illustrations

You can also split your content

White

Is the color of milk and fresh snow, the color produced by the combination of all the colors of the visible spectrum.

Black

Is the color of ebony and of outer space. It has been the symbolic color of elegance, solemnity and authority.

In two or three columns

Yellow

Is the color of gold, butter and ripe lemons. In the spectrum of visible light, yellow is found between green and orange.

Blue

Is the colour of the clear sky and the deep sea. It is located between violet and green on the optical spectrum.

Red

Is the color of blood, and because of this it has historically been associated with sacrifice, danger and courage.

A picture is worth a thousand words

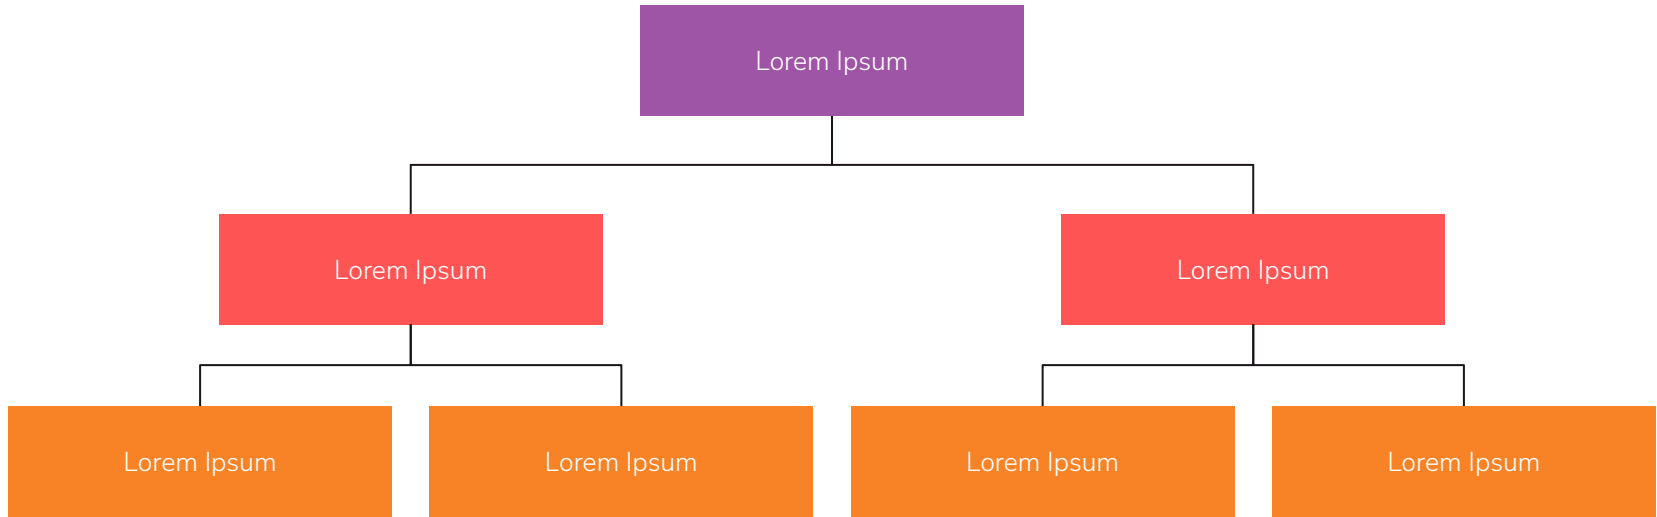

A complex idea can be conveyed with just a single still image, namely making it possible to absorb large amounts of data quickly.

Want big impact?
Use big image.

Use diagrams to explain your ideas

And tables to compare data

	A	B	C
Yellow	10	20	7
Blue	30	15	10
Orange	5	24	16

Maps

A close-up photograph of several silver spoons arranged on a dark, textured surface. The spoons contain various spices: a red powder, a yellow powder, a brown powder, and black peppercorns. A large pile of small, light-brown seeds is scattered in the background. The lighting is dramatic, highlighting the textures of the spices.
