

Sigmund Lee

School Board Trustees serve parents, students, teachers and administrators within the school system as the link between the school community, Board and Ministry of Education.

Sigmund Lee is a graduate from Concordia University, Montreal and a member of the Chartered Professional Accountants of Ontario. He would draw on over 30 years of financial and operational experience in public and private multinational organizations making decisions and provide leadership to put "education first". Not a slogan, but a commitment to our future.

At a time when resources are stretched to the limit, we must recognize that education must evolve and address the needs for our children's future, necessities in a safe environment.

Plan the future with Sigmund Lee.

He can be reached via email at votesigmund@gmail.com.
