Publication

It takes a village to foster responsible AI in government

Why am I running for trustee?

When I first learned about this election and the role of trustee, I felt it's the right time to act on the concerns of our community. Public servant for 8 years and Chair of an intergovernmental group for the last 2 years. In the Provincial and International landscapes, most of my current work is about laying a foundation of an ethical, equitable, transparent and responsible future for our talented young minds. I want to bring these valuable collaborations/advantages/learnings closer to home, to benefit families in our community.

Why vote for Wesley Hau?

COVID-19 changed the world we're living in. We must adapt and continue to provide education uninterrupted. Education in a changing time requires a long-term vision and immediate actions:

- For Secondary students, the post-secondary education landscape is changing rapidly. Higher Education Quality Council of Ontario (HEQCO) is a member of my group and as your trustee I can help students transition
- Elementary students, we need to support their mental wellness and digital wellness. Pandemic could be a traumatic experience for younger kids, we need programs and resources to support mental wellness
- Education uninterrupted, support instructor-led teaching in both classroom and virtual learning
- Future of work. One of the vital goals of education is to empower our kids to thrive in society. As your trustee, together we can give them a competitive edge in the post-pandemic economy
- Ethical values including fairness, trust, equity, justice, social good, and environmental good to bolster policies. An inclusive learning environment
- Promote student safety, sign up to COVID-19 email alert [here](#)
