General Information and Grade 8 Course
Selection for 2023-2024 School Year

Creating Pathways to Success

“Students are the architects of their lives”

- Pathways thinking and planning is embedded in all subjects areas
- In Grades 7-12 students working on their Individual Pathways Plan (IPP)
- Focus on education and career/life interests, choices, goals and plans through the 4-step inquiry process

The four step inquiry process:

1. Who am I?
2. What are my opportunities?
3. Who do I want to become?
4. What is my plan to achieve my goals?

This course enables students to develop their understanding of concepts related to biology, chemistry, physics, and earth and space science, and to relate science to technology, society, and the environment. Throughout the course, students will develop and refine their STEM skills as they use scientific research, scientific experimentation, and engineering design processes to investigate concepts and apply their knowledge in situations that are relevant to their lives and communities. Students will continue to develop transferable skills as they become scientifically literate global citizens.
