Elementary School Dental Screening Program – December 8, 2022

York Region Public Health has resumed the dental screening program in schools. Public health staff will begin visiting schools in mid-October 2022. To support schools in facilitating the dental screening program, **ITS will share the required student information directly with York Region Public Health.** Schools will no longer need to facilitate sharing this information.

York Region Child & Youth dental staff will be providing dental screening and referral for children in Grades JK, SK, 2, 8, possibly Grades 4,7 and select other grades as requested by parent/guardian in your school. Grade selection is based on findings from Grade 2 student screenings at each school.

Our school screening will be held on December 8, 2022

Student Information System

Over the course of the past two years many Ontario school boards have been working on the migration of their student information systems to a modernized system. The student information system is integral to school operations and is complex in nature.

Over the summer, the board implemented this new student system and as is the case with any new project of this magnitude we experienced a small number of implementation challenges. Our Information Technology Services team is working diligently with the associated vendors to resolve the issues. We recognize that these issues may have caused some inconveniences for regular school procedures and will work to provide regular communications to families.

Update your contact information:

Please be reminded of the importance of ensuring we have updated contact information including:
