

Dear Families and Students,

Please see the schedule below for the end of Semester 2. As in Semester 1, learning and student achievement has changed in response to our instructional delivery this year. As a result, what used to be called "Exam Days" are now called "Culminating Activity Days" as we do not have exams this year.

During Culminating Activity Days the schedule is different and no attendance is taken. Each Culminating Activity Day has been dedicated to one class/period. The requirements of each Culminating Activity Day will vary depending on the classwork, assignments and teacher. Any student requiring support to complete assignments can attend any/all of the culminating activity days and should arrange support details with their teachers. Students have been encouraged to verify with their teachers what tasks and/or assessment opportunities are available during the June 22 – June 29 schedule.

While at school during this time, students are to report to and remain in either their classroom with their teacher, the Student Success room, the Library, or the Cafeteria. School buses will run on their regular schedules during these days. If a student is coming into the school for the morning only, alternative arrangements should be made for transportation home, otherwise students are to remain in the Cafeteria until the afternoon buses arrive. Teachers will make the necessary appointments and arrangements with students in their classes on the days listed below.

Community Classes: Students in Community Classes will have program delivery differentiated to support the learning needs of the students. Ms. Baker's, Ms. Kniazeva's (Ms. Kondo) and Ms. Sleiman's students will attend daily. Mr. Manocha's and Mr. Sandermo's classes will have full-day synchronous and asynchronous instruction and learning activities posted in the Google Classroom. More information will be communicated to families from these classroom teachers.
