School Start-up Forms

The week of September 14th, you received an email with the subject line "YRDSB Forms for [your child's first name] – Your Response is Requested". This email outlined our annual practice of sharing with families a package of information about the school, the [Guide to the School Year](#) booklet, and some forms you need to complete. As a result of the pandemic and with a number of families participating in remote, online learning, this year we have asked families to complete these important forms online.

If you have not done so already, please complete and submit these online School Start-Up Forms using the link provided on the original email. It is important that these forms are completed as soon as possible. There are both mandatory and optional forms.

Families with more than one child will have received more than one invitation to this form. Please complete a separate form for each child .

If you prefer to complete the forms on paper or have questions about the information in the forms, please contact Denison Secondary School.

Health Care Forms

Fillable Health Care forms are now available for families who have children with asthma, seizure disorders, anaphylaxis, diabetes, and/or other prevalent medical conditions. This also applies to children who require the administration of medication at school. These forms can be accessed through the links below and/or a paper copy can also be requested from your child's school principal.

[Asthma Health Care Plan](#)

[Diabetes Health Care Plan](#)

[Epilepsy/Seizure Disorder Health Care Plan](#)

Once you've completed the appropriate Health Care Plan, please return it WITH the appropriate medication to school with your child. The form and medication can be placed in a sealable bag, with the student name marked on the bag and left at the office OR the form can be emailed to your Vice Principal:
