Dear Parents/Guardians:

### YRDSB Student Survey 2017

Student input is important to us. The York Region District School Board will be conducting a survey to collect feedback from students across the system. The survey will take place between April 21 and April 27, 2017.

As in previous years, all students in Grades 5 to 12 are invited to participate in this online survey at their school. The survey will take about 30 minutes to complete. The survey will include questions related to math, modern learning, mental health and well-being, equity, and school safety. Results from the survey will be used to support student achievement and well-being, monitor school progress, and create more equitable and inclusive school environments.

For the purposes of promoting equity and inclusivity, students will also have the option to indicate their racial/ethnic background, cultural or religious background, and for students in Grade 7 to 12, sexual orientation. The information students provide will be anonymous and no individuals will be identified through this survey. Students may skip questions they do not wish to answer.

For your reference, a copy of the survey is available in the school office and on the school website.

Completion of this survey by students is in compliance with the Ontario Education Act and fulfills the Ministry of Education's mandate to conduct student surveys related to school climate. If you do not wish your child(ren) in Grades 5 to 12 to complete the survey, **please advise the school in writing by the end of the school day on Monday, April 10, 2017.** If you have any questions about this survey, please contact the school office.

This important initiative will help further our vision as we work together to listen to student voices and inspire learning. We also value parent input, and in May, will be conducting a parent survey. In the near future, we will be sharing more information on how you can participate. Thank you for your support.

Sincerely,
