

HHSS Digital Technology Program

Bring Your Own Device

- All incoming Grade 9 students will be required to bring in their own Wi-Fi enabled device (i.e. Chromebook, Laptop) to use as part of an enhanced blended learning environment. The device **MUST** have a keyboard.
- The decision to adopt a one-to-one Digital Technology Program is driven by the desire to support the promotion of productive, lifelong learning.
- A one-to-one computing environment has a positive effect on student learning as it puts students more in control of their own education.
- One of the biggest benefits is the ability to connect student learning with real world applications.
