# Grade 9 French

- French is one of Canada's official languages
- French is recognized and valued as an integral component of Ontario's education system
- The vision of the French program in Ontario is that students will communicate and interact with growing confidence in French
- French is a compulsory subject, mandatory from Grades 4 to 9. Students are encouraged to study French in Grades 10 to 12.
- Grade 9 French is now offered at the open level (FSF101) for students who are new or have less than 600 hours of instruction in French

# Grade 9 French

\*\*Mandatory Course from grades 4-9

- If a student has an IEP and has completed French instruction in elementary school, they must Grade 9 Academic French
- Students who have not been enrolled in regular French instruction in elementary school or have fewer than 600 hours of French instruction, may wish to complete the beginner French course – FSF101
- A student who is new to Canada may also qualify to study FSF101 (no prior French instruction)
- If students are in Learning Strategies and the Arts Huron Program, then these students may choose to take French/Physical Education/Geography in their Grade 10 year

---

**Who is eligible to  
sign up for FSF101?**

---

# 34 Credit Threshold

- With appropriate planning and supports, the majority of Ontario students will finish secondary school, graduate and make the transition to their next step in four years
- Students may take as many courses as they wish within the first four years
- Some students will however choose to return for an additional semester or year – can only remain for a maximum of 34 credits
- Students with an IEP and ESL courses are exempt from this threshold

**What you need to know...**

# Bring Your Own Device

## HHSS One-To-One Digital Technology Program

- All incoming Grade 9 students will be required to **bring in their own Chromebook or laptop** to use as part of an enhanced blended learning environment. **TABLETS, PHONES, iPad do not provide the same level of functionality as a Chromebook or laptop.**
- The decision to adopt a one-to-one Digital Technology Program is driven by the desire to support the promotion of productive, lifelong learning.
- A one-to-one computing environment has a positive effect on student learning as it puts students more in control of their own education.
- One of the biggest benefits is the ability to connect student learning with real world applications.

# How to Read Codes

## How to Read Course Codes

Every course in an Ontario Secondary School has a six-character course code. A code can be broken down as follows:

**E N L**

3 letters identify the subject

The first letter represents the course's department area: A=Arts, B=Business, C=Canadian and World Studies, E=English, F=French, G=Guidance and Career Education, H=Humanities and Social Sciences, L=International Languages, M=Mathematics, S=Sciences, T=Technology

**1**

# reflects grade

1 = Grade 9  
2 = Grade 10  
3 = Grade 11  
4 = Grade 12

**W**

Letter shows course type

### Grade 9

W = Destreamed  
D = Academic  
L = Locally Developed  
O = Open

### Grade 10

D = Academic  
P = Applied  
L = Locally Developed  
O = Open

### Grade 11/12

U = University  
M = University/College  
C = College  
E = Workplace  
O = Open

**1**

A number to distinguish a course program or different sections.

# Decode the Code

- . PPL108 (Year, Level, course)

The modal window displays the following information:

**Science**

Grade 9 • SNC1W1 • 1 Credit • Destreamed

This course enables students to develop their understanding of concepts related to biology, chemistry, physics, and earth and space science, and to relate science to technology, society, and the environment. Throughout the course, students will develop and refine their STEM skills as they use scientific research, scientific experimentation, and engineering design processes to investigate concepts and apply their knowledge in situations that are relevant to their lives and communities. Students will continue to develop transferable skills as they become scientifically literate global citizens.
