Vaping in the Washrooms

We need your support. Several students are reporting that they feel unsafe within our washrooms as other students are vaping. As we monitor and find students vaping we do speak to them, reach out to families and follow progressive discipline. We are worried about the safety and the health concerns caused by vaping. Here is some information that we will be sharing with students and would like your support in having these dialogues at home too: <https://www2.yrdsb.ca/student-support/caring-and-safe-schools/substance-use-and-misuse/vaping-and-e-cigarettes>

Please do not permit your children to bring vapes or vape cartridges to school. We will be working with Tobacco Enforcement Officers to provide information to your children around the health concerns associated with vaping and the consequences for breaking the by-law around vaping on school property. This may include being issued a ticket or summons.

Please refer to the link below to discuss vaping with your teen.
