**Course selections require planning and support!**

Choose wisely! Know your strengths and interests. Consult with teachers, guidance and parents/guardians. Research post-secondary requirements. "My Pathway Planner" is your research tool.

**GRADE 9 & 10 PATHWAYS**

**ACADEMIC**

Academic courses focus on the essential concepts of the discipline and also explore related concepts. Academic courses develop students' knowledge and skills by emphasizing theoretical, abstract applications of the essential concepts of the course and incorporating practical applications as appropriate. Academic courses have more student-initiated activities and the curriculum is delivered at a quicker pace, requiring work outside of the class. PATHWAYS - University, College, Apprenticeship and Direct to Work.

**LOCALLY DEVELOPED**

Locally-developed courses have been developed to meet the needs of students whose skills fall below grade level. It is a guided approach to learning using practical examples and concrete objects. Each student's strengths and needs will determine appropriate pathways through secondary school.

**PATHWAYS - Some College programs, some Apprenticeships, Direct to Work and Community Living**

**DE-STREAMED**

De-streaming means this school will no longer be offering courses in the applied stream. De-streamed courses will have students from multiple pathways. Research shows that de-streaming results in better outcomes for students and particularly those who are from marginalized communities. PATHWAYS - University, College, Apprenticeship and Direct to Work.
