Cold Weather

From <http://www.yrdsb.ca/Programs/Healthy/Pages/Extreme-Weather-Conditions.aspx>

“All students are expected to go out for recess unless the principal or vice-principal decides that weather conditions are detrimental to students. Temperature, wind chill, sun/cloud conditions, humidity and wind velocity are monitored. On days of extreme weather conditions, schools will consider a shortened or indoor recess.

Students are expected to come to school dressed for outdoor play and prepared to be outdoors after lunch. Parents sometimes request their children be kept indoors during recess times because they are not feeling well. **Students with illnesses serious enough to prevent them from participating in normal school activities - physical education, recess or other outdoor activities - should remain at home until their condition improves.”**

From <http://www.yrdsb.ca/Programs/Healthy/Documents/GL-extremeweather-152.pdf>

“When temperatures and/or wind chill reach minus 20 degrees Celcius, consider an indoor routine for recess/events.

When temperatures and/or wind chill reach minus 18-19 degrees Celcius, consider a shortened outdoor routine for recess/events.”
