The health and safety of students and staff has been a top priority in YRDSB’s thinking from day one. In this model, students are learning with only one cohort of 15 students during each rotation. Semester 1 includes a 10 day rotation followed by a 12 day rotation. Students will attend school in the morning, on alternate days, and all students will attend their afternoon classes online. Students in our high needs community classes will attend class every day. Following the morning block of in person learning, students have been provided travel time to return home and engage in learning with their teachers.

In the afternoon, all students will participate in online learning (i.e., minimum of 80% synchronous learning in each period) where teachers use live meeting tools (e.g., Zoom, Google Meet) to provide real time synchronous learning opportunities for students.

Please note that in our four period adaptive model there are no exams.

The rotation schedule begins on September 14.

Below is an overview of the rotation schedule for each course through the semester.
