Many Teachers in a Classroom

Your child may come home talking about a number of teachers being in their classroom this week. This is part of our professional development call the 4C's. Many teachers have been working in teams Co-plan, Co-teach and then Co-debrief and Co-reflect. This helps us all take a closer look at the decisions we are making in our practice and spot areas that we may want to research and try different approaches to get students to learn and perform the way that we intend. This is exciting work for our teachers and some unique learning opportunities for our students!

Parent Requests

Calling the school to change pick up routines or to give messages to students may seem like an innocent and acceptable request, however, with 600 students in the school these requests can be challenging for us and can be a safety concern. We kindly request that parents do not call to relay messages to their children or make changes to pick up routines unless it is an emergency situation. You may provide written changes to the teacher in the morning so that they are aware and can plan for the end of the day. We want to ensure that all of our students are safe.

Read-a-Thon

We have been busy collecting read-a-thon pledge forms and now are ready to see the students do what they have been collecting money for!! **READING!!**

We have exciting prizes which students may win (see list attached) for being a part of this important fundraising initiative. Our council will be using the proceeds of the Read-a-thon to support student learning in the areas of technology and student well-being!! We will continue to accept donations as the month progresses.

Milne Outdoor Education Centre

Every year our grade 2, 4 and 7 students have the opportunity to visit one of the York Region District School Board's Outdoor Education sites. This year our students are visiting Milne.

The Milne Outdoor Education Centre is located at Roy H. Crosby Public School and is ideally situated on the doorstep of the Milne Dam Conservation Park in the Town of Markham. Established in 1990, Milne is one of four centres that provide outdoor education for elementary schools in the York Region District School Board. While visiting Milne Outdoor Education Centre, students will explore a 120 hectare urban wilderness that contains a remarkable diversity of plants and animals. The Rouge River bisects the park from east to west and represents Milne's most significant natural feature. Milne's hands-on educational programs are connected to expectations of the Ontario Curriculum and provide students with the opportunity to learn in outdoor settings.
