Family and Youth Feedback Wanted

York Region Special Needs Strategy

Does your child receive physiotherapy, occupational therapy and/or speech-language therapy?

Do you require many different services from various service providers?

Are you a teen who is accessing services?

If you answered yes to ANY of these questions we would like to hear from you!

The government of Ontario is working to improve how families and youth access the services they need. As part of this process we would like your feedback on how we can:

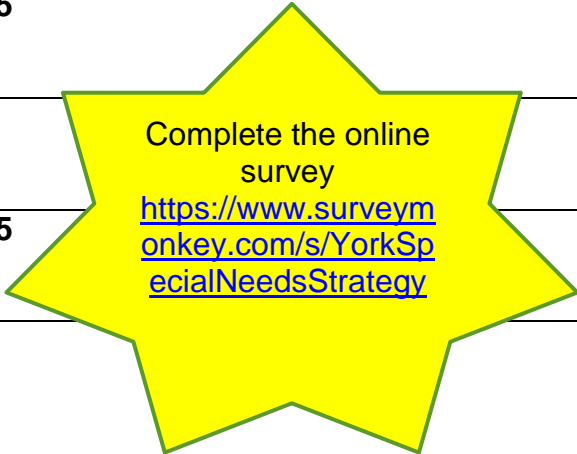

- Better integrate these rehabilitation services to make them easier to access and more seamless through the years.
- Improve service planning for families, kids and youth with multiple or complex needs.
