

# LEGACY EBULLETIN

## TECHNOLOGY UPDATE

During the next few weeks we will be having some important updates to the technology in our school. Classrooms on the second floor will have their LCD projectors mounted. This will be a welcome update and will get rid of troublesome cords that students and staff currently are working around!

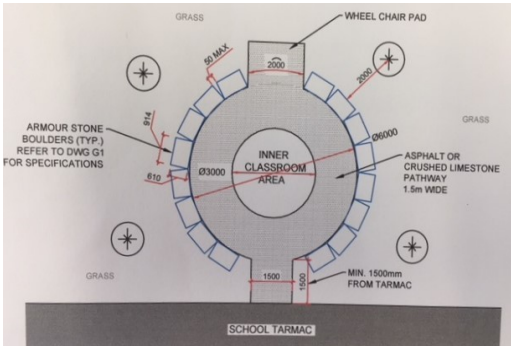

As well, our School Council has supported us in maximizing fundraising \$ by directing funds to the YRDSB Cost-Share program (in this program the YRDSB matches fundraising funds 1:1 to purchase technology). We will soon be receiving:

- 10 Dell Chromebooks
- 5 iPads with 32 g of storage
- 1 “Tech Tub” for storage and charging stations for up to 6 iPads
- 5 VGA to HDMI adaptors for connecting a laptop to an LCD projector
- 3 Epson LCD projectors!!!

## OUTDOOR CLASSROOM

The construction for our Outdoor Classroom may begin this weekend (dependent on the weather!!). During the construction the area will be fenced off to keep our interested students away from any dangers. As well, any building that would place students or staff at risk will not be done during times when students are out of doors.

We are excited about this addition to our school ground and look forward to celebrating with our families at an official unveiling of this space in the spring.

## 360 KIDS

Our charity event is well underway and classroom buckets are being filled. We hope that our students have shared with their families why we are supporting this charity and what they can do to help! At the assembly we challenged our Grade 5-8 student to go beyond asking their parents to make donations and be active in supporting this cause.

Some ideas:

- Parents may match \$ for \$ what the child is willing to donate.
- Child may work/do chores to earn funds to purchase something to donate.
- Have the child go and help pick out what is going to be donated.

We hope that our students get a true sense of the joy of giving through this meaningful charity event.

We also want to thank the School Council-Holiday Fundraising Committee for their organization, support and hard work in supporting 360 Kids.

## WINTER IS HERE

Our weather has been wonderful this fall with many days where students could take off their coats and play in their sweaters. However, winter is upon us. Students need to be dressed appropriately with hats, mitts and warm footwear to be comfortable in their time outdoors. Please consider keeping an extra set of mitts and socks in your child’s backpack to ensure that they have what they need to keep them warm!

**Legacy Wear Orders are extended until Monday December 11. Please make sure you hand them into the office.**
