April 18, 2016

Dear Parent(s)/Guardian(s),

As an extension to our Science program at Little Rouge Public School, the Grade 3 students will be having a workshop in the classroom with the Scientist in School on **Wednesday April, 27th**. Students will explore science and technology through a “hands on” workshop. During the workshop, students will participate in investigative science activities geared to meet specific expectations of the Ontario Science and Technology Curriculum.

The workshop we have booked for the grade 3's is called “**Plants Do Amazing Things**”: Life Systems. During the workshop students will sow the seeds of discovery and explore how plants breathe, grow, and store its food. They will examine leaf characteristics and observe plant adaptations. Students will make their own recycled paper and discover some of the extraordinary products made by plants.

The workshops will be held on the same day at two different times:

Morning Session (9:00 – 12:00): Ms. Cavazzon

Afternoon Session (12:00-3:00): Ms. Cohen, Ms. Ducas & Ms. Valkanis

The total cost of the workshop is **\$8.00** per student. Please have your child bring in the payment to their teacher before **Friday April 22nd**. (Cheques can be made payable to Little Rouge)

Sincerely,

The Grade 3 Team

Ms. Cavazzon, Ms. Cohen, Ms. Ducas, Ms. Valkanis
