If you have not been at Maple High School since Grade 9, or have not been at a school where English was the main language of instruction, you may need to demonstrate a language proficiency requirement (i.e. iELTS, TOEFL) for some programs. See Guidance for more information.

Visa Students and Refugee Claimants are considered "International Students." International students are encouraged to apply early as some programs at certain schools have a very limited number of seats for these particular students. Some schools (not all) use a "first come, first serve" system for International Students. Some programs (mostly oversubscribed programs) are closed to International Students.

You must arrange for your new school to inform OCAS about the change of high school. This will ensure that your academic data is sent to OCAS.

## **OSAP QUESTIONS**

#### Do I require the OSAP link to complete my application?

No, linking to OSAP is an optional step meant to save you time in your OSAP application. You may link your OSAP and OCAS accounts any time after you have submitted your OCAS application.

#### What is OCAS-OSAP linking? What does it mean to link my OCAS and OSAP accounts?

Linking allows you to save time in your application process by sharing the information you have input in your OCAS application with your OSAP application. When you provide your authorization and consent specifically for this purpose, OSAP will use information you gave the OCAS, such as your name, date of birth and address information, to prefill parts of your OSAP account registration and university program application(s).

### How do I link my OCAS application to my OSAP application?

Go directly to ontario.ca/osap or any of the OSAP banners/links within your OCAS application:

#### Linking from the OSAP Website

- If you are new to OSAP, choose "Register".
  - Review the OSAP terms and conditions.
  - $\circ$   $\;$  Select "Yes" and then choose "Ontario College Application Service".
  - $\circ$  Click "Setup link to OCAS".
  - Read the consent form and select "Allow" to link your OCAS and OSAP accounts.
  - Back on the OSAP site, click "Next" to proceed with your OSAP application.

#### Linking from the OCAS Website

Click on any of the OSAP banners/links within your OCAS application and follow the same steps as above.

### I changed my name in my OSAP application. Why did it not change my name in my OCAS application?

The OSAP and OCAS applications do not share personal and address (bio/demo) information on a continual basis. When you link, you allow the OCAS to share your bio/demo information with OSAP once. If you change your bio/demo information after linking, you will need to update both your OCAS and your OSAP accounts. To save time, we recommend ensuring all information is accurate before you link.

### I dropped a college choice on my OCAS application but it still shows on my OSAP application. Why?

OSAP displays all of your OCAS program choices, regardless of their status on your OCAS application. In the event that you change your mind, you will already have an estimate.

### Is everyone eligible to have their OCAS and OSAP accounts linked?

This service is available for all 2022 college applicants.

# Why do I only see my OCAS personal and address information but not my program selections?

Your program choices will not appear in your OSAP application until April. Log back in to your OSAP application at that time.
