Hypatia Contests (by University of Waterloo)	11	Thursday 4th April	Monday 4th March	\$13

Please register for the contests by making payments on SchoolCash Online. The fees above are set by the contest creators (CMS / CEMC), plus \$1 to cover SchoolCash Online transaction fees. Once payments have been made on SchoolCash Online, students will be invited to the “**MDHS Math Contests 2023-2024**” Google Classroom. This portal will be used to provide information about the contests such as date / time / location, and to return results to each student.

If you would like to register a student for a contest outside of their grade (eg. a grade 10 student who wants to write the grade 11 contests instead), please contact michael.raffoul@yrdsb.ca to make appropriate arrangements.

For more information about the contests, or to access past contests and solutions, please go to:

- Canada Lynx Math Competition: <https://cms.math.ca/competitions/clmc/>
- Canadian Open Mathematics Challenge: <https://cms.math.ca/competitions/comc/>
- University of Waterloo contests: https://www.cemc.uwaterloo.ca/contests/past_contests.html

What's Happening In the Tech Department

TIJ10 - Grade 9 Exploring Technologies

Students have cut their wood to size for their box and will continue sanding them down to eliminate imperfections. Once complete, they will begin assembling their boxes by nailing and gluing them together before using the bandsaw to separate the top and bottom.

TDJ 2O1 - Grade 10 Tech Design

This week students in Grade 10 Tech Design will be working on the initial stages of their Bedroom Redesign Project. Students will be required to take measurements of either their bedroom or another they can access. They will be assessing the space in terms of lighting, seating, ventilation, etc. to see where improvements can be made. They will then develop a mood board to help express the look and feel of the room they wish to create.

TTJ3C - Grade 11 Transportation

Transportation students will be working in groups on a range of different projects. Some groups will be working on antique outboard motors to gain a better understanding of how they function, differ from other types of motors, and how to diagnose and address common problems. Others will be learning about the steps required to perform a thorough brake inspection. The rest of the groups will be involved in doing oil changes. As groups complete their learning in one area they will rotate to experience the other learning opportunities.

TGJ4M - Grade 12 Communications Technology

Students are performing multicam edits that incorporate tilting, chromakey and other editing features using Premiere Pro, Canon DSLRs and After Effects. They will get an opportunity to design a multicam edit project of their choice which incorporates all the technology they learned, in preparation for their final culminating project.
