# Online Learning Graduation Requirement

## Online learning graduation requirement

Beginning with students that entered Grade 9 in the 2020-21 school year, students must earn at least two online learning credits to get their Ontario Secondary School Diploma. Please see your Guidance Counsellor about options for the online learning requirements.

**Students also have the option to 'opt out' of this requirement.**

# Opting Out STEP 1

## Select 'Online Learning Opt-Out'

The screenshot shows the myBlueprint website interface. On the left is a dark blue navigation sidebar with the myBlueprint logo (a groundhog) and the text "myBlueprint Groundhog Day". Below the logo are menu items: Home, Who Am I, High School (highlighted in blue), Continuing Education, Post-Secondary, Work, Money, Guides, and Favourites. The main content area is a grid of course selection options for Grades 9, 10, 11, and 12. The columns are labeled "Grade 9 Plan Ahead", "Grade 10 Plan Ahead", "Grade 11 Plan Ahead", and "Grade 12 Plan Ahead". A red arrow points to the "Online Learning Opt-Out" option in the Grade 12 column. # Individual Pathways Plan (IPP)

The IPP is the primary planning tool for students as they progress through school towards their initial post-secondary destination.  
(Creating Pathways to Success 2012)

Students will perform a four-step inquiry process performed from grades 7–12 based on four questions linked to four areas of learning. The web-based tool which will hold the IPP is myBlueprint.

# Step 1: Go to “My Pathway Planner”

- 1) Go to the YRDSB home page and click on ‘ONLINE STUDENT TOOLS’
- 2) Click on ‘My Pathway Planner’

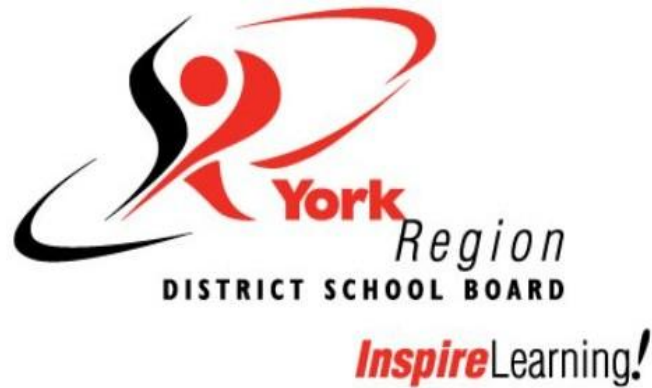

The screenshot shows a web browser window displaying the 'Online Student Tools' page. The page features six cards, each representing a different tool. A large red arrow points to the 'My Pathway Planner' card in the bottom right corner. The cards are:

- Google Classroom**: Platform enabling online learning and collaboration through Google Apps for Education. Students can access Google Meet through Classroom. [Need help?](#)
- Google Meet**: A video conferencing tool for students to engage in online learning. [Need help?](#)
- GSuite**: Digital tools that help students create and collaborate. Tools include Gmail, Docs, Slides, Sheets, Jam Board and Drive. [Need help?](#)
- Brightspace/D2L**: Virtual Learning Environment that provides online courses and course content. [Need help?](#)
- TeachAssist**: Online tool for secondary students, providing student course assessment data. [Need help?](#)

# Course Selection Tips for the COLLEGE PATHWAY

- **Students entering Grade 12 often sign up for a full timetable (minimum 7 courses) as it is usually easier to drop a course than it is to add one**
  - **If your college program (e.g. social work) suggests related experience, you may consider taking Cooperative Education courses**
- **Take college program prerequisite courses at the college (C) level whenever possible (e.g. take ENG4C rather than ENG4U). Majority of College programs treat these marks equally (unless it is a College Degree).**
- **Consider enrolling in a dual credit course (earn a College and high school credit at the same time)**

# Course Selection Tips for the APPRENTICESHIP PATHWAY

- If there is a skilled trade you are interested in, you should investigate co-op opportunities related to that field.
  - The Ontario Youth Apprenticeship Program may also be a program of interest for those students interested in the trades.
  - Please note that strong math skills are required for some of the skilled trades (e.g. electrical, automotive service technician)
  - For further information, please see your Guidance Counsellor or CO-OP Department Teacher.

The skilled trades are an exciting career choice and many are in high demand. Career paths in the skilled trades are full of potential, with more than 300 designated trades to choose from in Canada. Of those, 55 can have a **Red Seal Trade** designation. Generally, skilled tradespeople work in one of these sectors:

**Transportation** includes maintenance and repair of vehicles - ranging from automobiles and motorcycles, to trucks and heavy equipment. Transportation includes trades such as automotive service technicians, heavy-duty equipment technicians, motorcycle technicians, and more.

**Manufacturing and Industrial** features careers in many different manufacturing sectors, including automotive (parts and vehicle manufacturing), product manufacturing, and the resource extraction and processing industries. Manufacturing trades include tool and die makers, industrial mechanics (millwrights), metal fabricators, and more.

The **Services** sector is a major industry in the Canadian economy and includes cooks, bakers, hairstylists, landscape horticulturists, and more.

**Information and Digital Technology** skills are central to many trades including instrumentation and control technicians, machinists, and crane operators.
