FALL COURSES

Raising a Responsible Child

Do you have to nag, remind, and threaten just to get your child to take care of their responsibilities? Do you often end up doing their work for them? Whether it's putting laundry away or completing school assignments, your child must learn how to cope with life's demands. This workshop/webinar zeros in on the steps you can take to help your kids handle their responsibilities without arguing or pampering.

Help! My Child Won't Listen

Is it hard to get your child to cooperate? Does it feel like everything's a battle? Power struggles are one of the most common yet difficult parenting challenges. Understand the dynamics behind this stressful problem and learn effective, simple strategies to "defuse" power and improve cooperation and harmony.

Raising a Self-Confident, Resilient Child

Do you feel your child lacks self-confidence? Does this problem impact school or friendships? Research has shown that children with high self-esteem have an advantage in dealing with life's challenges. This workshop/webinar gives you strategies to help your child develop resilience and healthy self-esteem. Encouragement, perfectionism, praise, and handling mistakes without discouragement are all examined in this enlightening workshop.

Say Good-bye to Homework Hassles

Is the nightly hour of homework a negative experience for both you and your child? Not all homework problems are the same and each requires a tailored solution. Learn how to help your child handle this important responsibility and establish good study habits – vital tools for their future academic success.

Parenting Without Anger

All parents get angry but if you feel that anger is having a negative impact on your family, this workshop/webinar is a must for you. Learn the important skills of positive communication and problem solving to help you maintain a respectful atmosphere in your family. Proven tools such as family meetings, listening techniques, and conflict resolution will be covered.
