

February 5-9

Monday February 5	
Tuesday February 6	<p>Starting as a one-week celebration in 1926, and officially beginning in 1970 by Black United Students and educators in Kent State University, February is known as Black History Month. Black History Month is an annual celebration of achievements and is dedicated to recognizing the crucial role in our overall history. Everyday this month, we will play songs and read quotes in honour of Black History Month, and touch on prominent figures that have helped shape history for the better. Today's quote was by Martin Luther King Jr, who played a key role in the American civil rights' movement, and is known for his messages of peace and beliefs of non-violent protests. He led the Montgomery bus boycott, a campaign against racial segregation on public transit, and helped organized protests. A few examples include protests in Birmingham, Alabama and the 1963 March on Washington where he delivered his famous speech, "I Have a Dream". He's well-known for his work as an activist, including his work as a pastor, and still inspires generations to this day with his life's work and beliefs in love and unity.</p> <p>The Computer Science Department is seeking responsible students to join our Student Lab Advisor Team this semester.
