Course Selection Cont'd

From your dashboard, access your High School Planner by choosing **“High School”** from the left hand navigation menu

The screenshot shows the user interface of the My Pathway Planner. On the left is a dark navigation sidebar with a blue circular profile icon at the top. Below it are menu items: Home (with a house icon), Who Am I (with a person icon), High School (with a graduation cap icon and circled in yellow), Continuing Education (with a book icon), Post-Secondary (with a graduation cap icon), Work (with a briefcase icon), Money (with a dollar sign icon), Guides (with a document icon), and Favourites (with a heart icon). A yellow arrow points from the text to the 'High School' item. The main content area is titled 'Home' and includes sub-navigation for Dashboard, Tasks, Classes, Goals, and Portfolios. A prominent task card titled 'Complete your IPP Tasks' shows a 64% progress bar and a sub-card for 'High School + Plan' with the text 'Plan Courses for Grade 9'. Below this, there is a 'High School Progress' section with an 'Official High School Plan' card and a 'PORTFOLIO' section with the text 'Tell your story'.

Click ADD COURSE to select the course for your pathway planner

Please make note of pre-requisites in course descriptions

The screenshot shows a course selection interface. At the top, there is a close button (X) and the title 'Functions'. Below this, the course details are listed: 'Grade 11', 'MCR3U1', '1 Credit', and 'University'. The main body of the page contains a detailed description of the course, which is circled in yellow. Below the description, the pre-requisites are listed as 'Pre-requisites (a minimum of 1 of the below required)' with a bullet point for 'MPM2D'. At the bottom, there is a 'Course Status' section with three buttons: 'Planned', 'In-Progress', and 'Completed'. At the very bottom of the interface, there is a large blue button labeled 'Add Course', which is also circled in yellow. Two yellow arrows point from the text on the left to the 'Add Course' button and the course description.

Grade 11 MCR3U1 1 Credit University

This course introduces the mathematical concept of the function by extending students' experiences with linear and quadratic relations. Students will investigate properties of discrete and continuous functions, including trigonometric and exponential functions; represent functions numerically, algebraically, and graphically; solve problems involving applications of functions; investigate inverse functions; and develop facility in determining equivalent algebraic expressions. Students will reason mathematically and communicate their thinking as they solve multi-step problems.

Diploma Requirements

Graduation Requirements

To earn an Ontario Secondary School Diploma, students must:

- earn 18 compulsory and 12 optional credits
- complete 40 hours of community involvement
- complete the literacy requirement
- earn at least two online learning credits

Credits (18 compulsory and 12 optional)

30

Hours of community service

40

Ontario Secondary School Literacy requirement

1

Online learning credits

2

Plus one credit from each of the following groups:

Group 1

- English (including the Ontario Secondary School Literacy Course) or French as a second language**
- a Native language
- a classical or international language
- social sciences and the humanities
- Canadian and world studies
- Native Studies
- guidance and career education
- cooperative education***

Group 2

- health and physical education
- the arts
- business studies
- French as a second language***
- cooperative education***

Group 3

- science (Grade 11 or 12)
- technological education
- French as a second language**
- computer studies
- cooperative education***

Have you included your group credits in your plan?

18 Compulsory Credits

Students must earn the following compulsory credits to obtain the Ontario Secondary School Diploma

4 Credits in English (1 credit per grade)

- The Ontario Secondary School Literacy Course (OSSLC) may be used to meet either the Grade 11 or the Grade 12 English compulsory credit requirement.
- The Grade 11 Contemporary Aboriginal Voices course may be used to meet the Grade 11 English compulsory credit requirement.
- For English language learners the requirement may be met through earning a maximum of 3 credits in English as a second language (ESL) or English literacy development (ELD); the fourth credit must be a Grade 12 compulsory English course.

3 credits in mathematics (at least 1 credit in Grade 11 or 12)

2 credits in science

1 credit in Canadian history (Grade 10)

1 credit in Canadian geography (Grade 9)

1 credit in the arts

- The Grade 9 Expressing Aboriginal Cultures course may be used to meet the compulsory credit requirement in the arts.

1 credit in health and physical education

1 credit in French as a second language

- Students who have taken Native languages in place of French as a second language in elementary school may use a Level 1 or 2 Native language course to meet the compulsory credit requirement for French as a second language.

0.5 credit in career studies

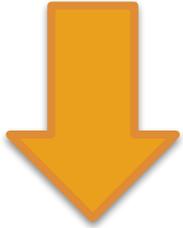

0.5 credit in civics

Have you planned to complete your compulsory credits by the end of Grade 12?

PREREQUISITE Planning

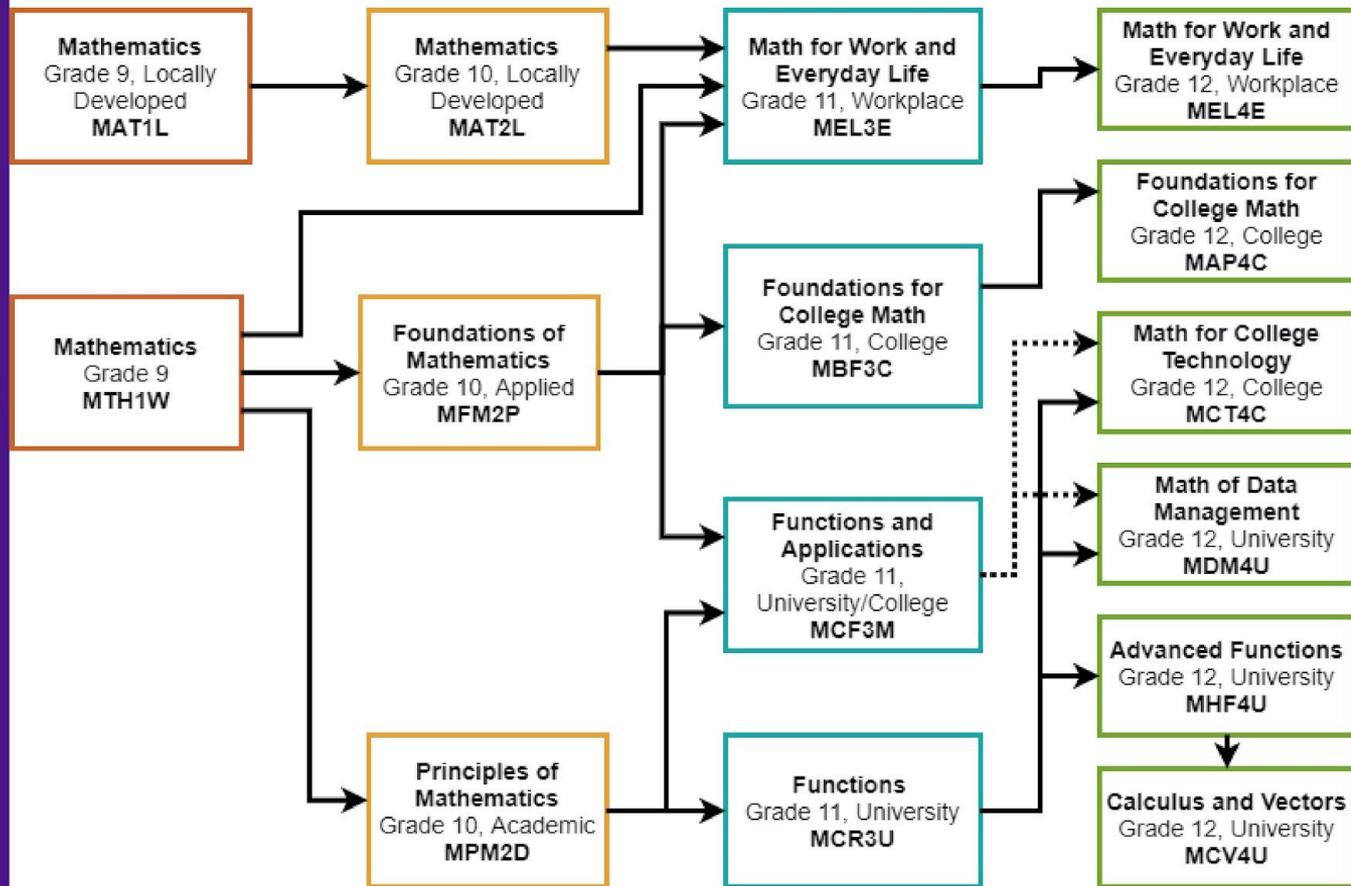

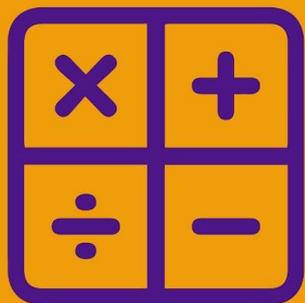

MANY Gr. 11 & 12 courses have prerequisites!

- A prerequisite is a course students must complete before enrolling in a more advanced course. It helps to ensure students have the foundational knowledge or skills required to succeed in the subsequent course. Prerequisites help maintain a logical progression in learning, ensuring that students are adequately prepared for more complex material. For example, you must complete Gr. 10 Academic Math (MPM2D) to be eligible to take Gr. 11 University Functions (MCR3U)
- Prerequisites are identified for each course in My Pathway Planner
- RESEARCH! Colleges, Universities, the Ontario Apprenticeship Board, Trade Unions and other post-secondary institutions have eligibility requirements for their programs
- Plan backwards (with the end in mind)** is essential. For example, if you want to be an engineer, you will need to research and select the gr 12 courses required to apply to a university engineering program such as SPH4U, SCH4U, MHF4U, MCV4U & ENG4U. You may begin selecting gr. 11 courses after you have added the required Gr. 12 courses in my pathway planner.

Math Pathways Planning

Planning and Support

- You have the next month to research, consult and plan
- Consult with teachers, guidance and parents
- Research post secondary eligibility requirements
- Remember there are many pathways to the destination of your dreams

**COURSES
OFFERED
EVERY
OTHER
YEAR!**

HRT3M1 World Religions and Belief Traditions: Perspectives, Issues, & Challenges, Mixed

This course provides students with opportunities to explore various world religions and belief traditions. Students will develop knowledge of the terms and concepts relevant to this area of study, will examine the ways in which religions and belief traditions meet various human needs, and will learn about the relationship between belief and action. They will examine sacred writings and teachings, consider how concepts of time and place influence different religions and belief traditions, and develop research and inquiry skills related to the study of human expressions of belief.

Prerequisite: None

(Not offered in 2026-27)

CHA3U1 American History, University

This course explores key aspects of the social, economic, and political development of the United States from precontact to the present. Students will examine the contributions of groups and individuals to the country's evolution and will explore the historical context of key issues, trends, and events that have had an impact on the United States, its identity and culture, and its role in the global community. Students will extend their ability to apply the concepts of historical thinking and the historical inquiry process, including the interpretation and analysis of evidence, when investigating various forces that helped shape American history.

Prerequisite: Canadian History since World War I, Grade 10, Academic or Applied

(Available in 2026-27)

**COURSES
OFFERED
EVERY
OTHER
YEAR!**

HLS30 Housing and Home Design, Open

This course introduces students to a range of issues related to housing and home design. Students will learn about the needs that housing fulfils; housing options; home maintenance and safety; and environmental, economic, legal, and social considerations related to housing. They will use the elements and principles of design to analyze design and decorating decisions. Students will develop research skills as they investigate issues related to housing and home design.

Prerequisite: None

(Not offered in 2026-27)

HPC30 Raising Healthy Children, Open

This course focuses on the skills and knowledge parents, guardians, and caregivers need, with particular emphasis on maternal health, pregnancy, birth, and the early years of human development (birth to six years old). Through study and practical experience, students will learn how to meet the developmental needs of young children, communicate with them, and effectively guide their early behaviour. Students will develop their research skills through investigations related to caregiving and child rearing.

Prerequisite: None

(Available in 2026-27)

NEW COURSE!

AMC301- MUSIC FOR CREATING, OPEN

This open level course is designed for students who don't have previous band or choir experience but still want to learn and develop their music skills, specifically through creating music. This course does not require any previous music experience as the basics of music will be taught. Students will explore and learn various styles of music at a pace appropriate to their individual skill level. This course will include opportunities for music appreciation and creation through collaboration and independent work tailored to the students in the class.

Opportunities will be available for students to continue learning instruments they already play that don't fit into our Concert Band Program or learn something new, depending on instrument availability.

This course is not intended for students who are currently in the Grade 10/11 Instrumental, Vocal or Repertoire Program.

Please see a music teacher for more information!

Prerequisite: None

NEW COURSE!

GPP30F- LEADERSHIP et ENTRAIDE (FI) OPEN

This course prepares students to act in leadership and peer support roles. They will design and implement a plan for contributing to their school and/or community; develop skills in communication, interpersonal relations, teamwork, and conflict management; and apply those skills in leadership and/or peer support roles – for example, as a student council member or a peer tutor. Students will examine group dynamics and learn the value of diversity within groups and communities.

Prerequisite: None

*Course is only available to **French Immersion students***

NEW COURSE!

PPL308 – GIRLS HEALTHY ACTIVE LIVING, OPEN

This course enables students to develop the knowledge and skills required to make healthy choices now and lead healthy, active lives in the future. Through participation in a wide range of physical activities and exposure to a broader range of activity settings, students enhance their movement competence, personal fitness, and confidence. Students also acquire an understanding of the factors and skills that contribute to healthy development and learn how their own well-being is affected by, and affects, the world around them. Students build their sense of self, learn to interact positively with others, and develop their ability to think critically and creatively.

Prerequisite: None

Course is only available to female students

NEW COURSE!

TWJ3E1 – CUSTOM WOODWORKING, W PREP

This course enables students to develop knowledge and skills related to cabinet making and furniture making. Students will gain practical experience using a variety of the materials, tools, equipment, and joinery techniques associated with custom woodworking. Students will learn to create and interpret technical drawings and will plan, design, and fabricate projects. They will also develop an awareness of environmental and societal issues related to the woodworking industry, and will explore apprenticeships, postsecondary training, and career opportunities in the field that may be pursued directly after graduation.

Prerequisite: None

- **Cooperative Education:** earn credits while gaining experience in a workplace; full-day and half-day options are available
- **Dual Credit:** students can take college or apprenticeship courses that count towards both the Ontario Secondary School Diploma and a post-secondary certificate, diploma, degree, or apprenticeship certification; courses are offered at no cost, once a week at a college location
- **Ontario Youth Apprenticeship Program (OYAP):** offered through Cooperative Education; students are registered as apprentices and earn hours towards an apprenticeship at the same time as earning cooperative education credits
- **Specialist High Skills Major (SHSM):** students explore an area of interest and work on certifications related to a sector ‘major’ (Business, Construction, or Health and Wellness) and gain workplace experience
Register online: [SHSM Application](#)

Specialist High Skills Major Certificate

- Develop specialized knowledge and skills in an industry specific area by choosing a major in construction, health and wellness or business.
- Students are required to complete a set number of courses within their specific major, 2-credits in co-operative education and complete various industry recognized certifications
- Explore various careers exploration and opportunities within a specific industry sector

Register online: [SHSM Application](#)

Specialist High Skills Major

Be sure you are on track to graduate with your certifications (posted in the SHSM Google Classroom) and your required credits

If you are planning to enrol in one of our SHSM programs, please check that you will meet the required credits for your SHSM sector.

Apprenticeship & Workplace

Apprenticeship

APPRENTICESHIP & WORKPLACE

Apprenticeship is proven hands-on training program for people who enjoy "learning by doing" and who wish to work in a skilled trade. Most types of apprenticeship training is provided in the workplace by employers. The remainder involves theoretical classroom instruction, which is usually given at a local community college, or provided through another approved training organization. Apprentices receive training while they earn a wage. The length of time that is required to complete an apprenticeship varies from trade to trade.

Accelerated OYAP
Students can earn high school credits, register as an apprentice, complete part or all of the "Level One" apprenticeship activities in a specific trade, and save hours toward their apprenticeship training. YRDSB currently offers Level 1 Apprenticeship programs for Auto Service & Technology, Refrigeration and Air Conditioning Systems, Machinics, Cook, Cooks/Line, Food Law, Child Development, Baker, General Carpenter and Drywall.

Upon graduation, individuals are to find an employer willing to sign them as an apprentice. Having prior experience through a co-op placement or summer employment, could assist in securing an apprenticeship.

For further information:

'My Pathway Planner'
www.prfab.ca

Programs & Services - Secondary Programs - Ontario Youth Apprenticeship (OYAP)

www.ontario.ca/page/apprenticeship-2012
www.apprenticesearch.com

YRDSB school-to-work transition offerings are specialized programs that prepare students for employment or self-employment. These programs include both on-the-job and school-based experience, including job shadowing, job training, work experience, co-operative education, and in-depth skills training, and require the involvement of employers in their recruitment and delivery. These programs may provide advanced standing or additional certification for students in apprenticeship and skills certification programs.

The following resources provide information and support for students preparing for the workplace:

'My Pathway Planner'

www.yrdsb.gi.ca

www.ontario.ca/page/employment-circuits

www.jobskills.org

www.gri.ca

For all four of the pathways discussed in this guide, consider the co-op program to help get you there. Actual experience in a profession or industry can be extremely beneficial whether applying to college, university, an apprenticeship or heading straight to the workplace. Consider the many reasons for participating in a co-op term:

For further information:

Students career education

- Builds a network of career-related references
- Helps develop career-focused essential skills
- Could lead to a part-time or full-time job

For further information on all four pathways opportunities guided through co-op, please contact the McCowan Library 905 West of Community Based Education (216) 926-6100 ext. 2100

COURSE SELECTION TIPS

- Strong math skills are required for some of the skilled trades (e.g. electrical, automotive service technicians). Check carefully, you may require MCTAC
- If there is a skilled trade you are interested in, you should investigate co-op opportunities (e.g. construction sector may require you to consider a 4 credit co-op in Grade 11, in order to participate in the accelerated OYAP program in second semester Grade 12)

Workplace

Course Selection Tips

Diploma

PREPARING FOR THE DIPLOMA PATHWAY AT COLLEGE

- The most commonly required courses for admission to college diploma programs are Grade 12 English (ENG4C), Grade 12 Math (MAP4C) and Grade 11 or 12 Sciences (SNC1D, SNC2D).
- Most college diploma programs require college (C) preparation courses to meet specific course admission requirements. Carefully check Math requirements! Some college programs require/prefer Grade 12 Mathematics for College Technology (MCT4C) for which the prerequisite is MCF3M (not MCF3D).
- Many students take the college diploma pathway as a stepping stone for transfer to the university or college degree pathway. www.ontransfer.ca.
- College admission requirements can vary a great deal from college to college, even when the program titles are the same.
- Repeat your research for every college program you are considering to be certain you will meet their specific admission requirements. www.ontariocolleges.ca

STUDENTS WITH EXCEPTIONAL LEARNING NEEDS

Students with exceptional learning needs, learning disabilities and/or Individual Education Plans (IEP) can find support information for both colleges and universities at: www.transitionsourceguide.ca

COURSE SELECTION TIPS

- Students entering Grade 11 must select 8 courses.
- Students entering Grade 12 should sign up for a full timetable (8 courses).
- If your college program (e.g. social work) requires documented experience, take co-operative education courses and/or volunteer if possible.
- Take college program prerequisite courses at the college (C) level whenever possible (e.g. ENG4C rather than ENG4U), unless your college program factors in a grade differential weighting when making admission decisions (note: the majority of colleges do not do this). Or, if you are confident you can achieve an equal or better mark in the U or M course.
- Take courses for which you have the prerequisite credit as well as the academic preparation.

Dual Credit Courses allow Grade 12 students (while they are still in secondary school), to take college or apprenticeship courses that count towards both the Ontario Secondary School Diploma (OSSD) and a post-secondary college program. Students may earn credits toward the OSSD through courses delivered by publicly funded colleges in Ontario that are participating in the ministry approved dual credit program. As well, SHSM and OYAP students may receive some industry-specific certifications in Dual Credit courses. Students can earn up to four optional credits through college delivered dual credit courses.

Degree

PREPARING FOR THE DEGREE PATHWAY AT COLLEGE OR UNIVERSITY

- University admission usually requires a minimum of six grade 12 U or M courses (the number of accepted M courses depends on the university program).
- Check specific program requirements for each university.
- Science program requirements vary greatly depending on the university.
- If you wish to apply to a Bachelor's Degree program at college, you must meet university admission requirements.
- If you wish to apply to a joint College/University program (e.g. nursing) you must meet university admission requirements.
- When researching university programs consider the following: admission averages cut-off marks and program enrolment numbers, additional admission criteria.

 "My Pathway Planner"

COURSE SELECTION TIPS

- Students entering Grade 11 must select 8 courses.
- Students entering Grade 12 are recommended to sign up for 8 courses and at least 7 Grade 12 U or M courses.
- 12 U English (ENG4U) is a requirement for most University Degree and College Degree programs.
- Select Social Science courses in addition to Math and Science in case you change your choice.
- Take courses for which you have not only prerequisites, but also the academic preparation.
- Consider attending spring open houses at the universities and colleges which are often held over March Break.

Specialist High Skills Major (SHSM)
 Programs at Newmarket High School:

- Arts and Culture (pending approval)
- Business
- Construction
- Health and Wellness

What is it?

SHSM is a two-year program designed to help students develop specialized skills in various careers. It is career-focused learning which allows students to explore, identify and refine their career pathways while working toward their OSSD. Students complete a package of sector specific certifications and course requirements include a two-credit co-op.

For Whom?

Grade 11 and 12 students, in any pathway, who are interested in exploring a field of study related to occupations in Arts and Culture, Business, Construction, or Health and Wellness sectors.

Why should students consider it?

This additional qualification is recognized by Colleges and Universities across the province. It enhances the student's understanding of the field of study they are interested in pursuing. Students can earn an SHSM certificate upon graduation.

Sector related occupation examples include:

Arts and Culture	Business	Construction	Health and Wellness
Actor	Accountant	Air Conditioner/Mechanic	Dentist
Animator	Advertising	Building Inspector	Dietician
Designer	Banker	Carpenter	Fitness Consultant
Film Maker	Event Planner	Drywall Sander	Laboratory Technician
Graphic Designer	General Manager	Electrician	Massage Therapist
Immigration Officer	Insurance Agent	Heavy Equipment Operator	Pharmacist
Journalist	Law Clerk	Ironworker	Personal Trainer
Museum Technician	Marketing Director	Landscaper	Physician
Photographer	Paralegal	Plumber	Psychologist
Stage Dress Manager	Real Estate Agent	Tile-setter	Social Worker
Travel Agent	Salesperson	Welder	X-Ray Technician

College Admission Requirements

- Students must earn Gr. 12 English (ENG4U or ENG4C) to apply
- Additional prerequisites in Math and/or Science are often required for most Business, Computer, Engineering, Health, Math, and Science related programs such as paramedics
- Specific requirements are found at:
<https://www.ontariocolleges.ca/en>

Consider **College** if you...

- Enjoy practical, hands-on learning
- Smaller class sizes
- Combining theory and technical knowledge
- Have a specific career goal
- May wish to enter the workforce quickly

University Admission Requirements

- All Ontario universities require a minimum **6 Gr. 12 U (university) or M (university/college)** courses to apply and considered for admission
- Gr. 12 English (ENG4U) is required for ALL universities
- Additional prerequisites in Math and/or Science are required for most Business, Computer, Engineering, Health, Math, & Science programs
- Specific requirements are found at:

<https://www.ontariouniversitiesinfo.ca/>

Consider **University** if you...

- Enjoy a classroom setting and are an independent learner
- Are analytical, enjoy critical thinking, inquiry, and problem solving
- Have strong communication skills (written and oral)
- Are self-motivated and have good time management

The screenshot shows the homepage of the Ontario Universities' Info website. At the top, there is a navigation bar with links for "HIGH CONTRAST", "FRANÇAIS", "ABOUT", "CONTACT", "FAQS", and "HELP", along with a search bar. Below this is a main navigation bar with four primary categories: "PROGRAMS" (with the subtext "WHAT INTERESTS YOU?"), "UNIVERSITIES" (with the subtext "WHERE ARE YOU GOING?"), "FINANCE" (with the subtext "FEES & SCHOLARSHIPS"), and "APPLICATIONS" (with the subtext "WHAT YOU NEED TO KNOW"). Two red arrows point to the "PROGRAMS" and "UNIVERSITIES" links. Below the navigation is a large banner image of a diverse group of young people. Overlaid on the right side of the banner is the text: "Welcome to Ontario Universities' Info" and "A guide to Ontario's universities for high school students." Below the banner are three main service areas: "Find a Program" (with a graduation cap icon), "Choose a University" (with a shield icon), and "How to Apply" (with a checklist icon). Each area includes a brief description of the service.

Find a Program
Search for your ideal program and find out the information you need to apply, like prerequisites, grade requirements and more. Plus, compare your choices.

Choose a University
Get to know Ontario's universities and where they are located. Find out information about campus visits, residence costs and more!

How to Apply
Which application is right for me? Answer a few statements to guide you to the proper undergraduate application.

- Searching “Economics” results in over 140 programs

The screenshot shows the search results page on the Ontario Universities Info website. At the top, there is a navigation bar with the "ONTARIO UNIVERSITIES INFO" logo and four menu items: "PROGRAMS WHAT INTERESTS YOU?", "UNIVERSITIES WHERE ARE YOU GOING?", "FINANCE FEES & SCHOLARSHIPS", and "APPLICATIONS WHAT YOU NEED TO KNOW?". Below the navigation bar, the "Search Results" section is visible. It includes a "Sort By" dropdown menu set to "Program Name", a search bar containing the word "Economics", and a "SEARCH ALL PROGRAMS" button. The search results are listed in a table with columns for program name, university, and completion status. The first result, "Accounting (4 years) (French Immersion is available)" from the University of Ottawa, is circled in yellow. A red arrow points to this result. Other results include "Accounting (BA 3 year)" from Algoma University and "Applied Economic Analysis" from Brock University. On the right side of the page, there are sections for "Find a Program", "Browse Programs", and "Discover Other Options".

Overview Requirements Admission Contact

Prerequisites

- ENG4U or FRA4U
- MHF4U
- MCV4U

If you are taking MCV4U, you may take an equivalent course at the University the summer before, or during, your first term.

IB and AP Requirements

- [IB Admission Information](#)
- [AP Admission Information](#)

Full Disclosure

- The Ontario Student Transcript provides a record of a student's overall achievement in high school.
- Only successfully completed Grades 9 and 10 courses appear on your transcript.
- **ALL** Grade 11 and 12 course attempts will appear on your transcript.

Community Involvement Hours

- Make a commitment to get your 40 hours completed as soon as possible
- See the bulletin board inside the Guidance Office to learn about current volunteer opportunities.
- Register online with the Neighbourhood Network to be notified about local volunteer opportunities:

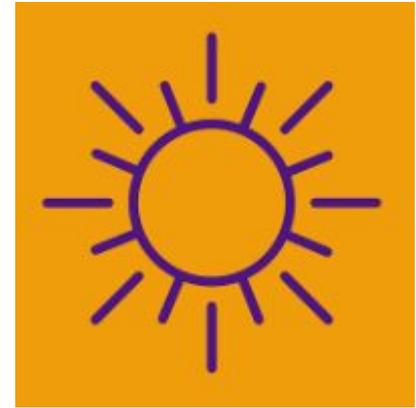

<https://neighbourhoodnetwork.org/>

Summer School

- Registration occurs in April/May
- Students registering for summer school will require guidance counsellor consultation and approval
- Students will register through My Pathway Planner

Scholarship Planning

Scholarship information is available on the [Scholarships Canada](#) website.

In your graduating year (Grade 12), you will post a variety of scholarship opportunities in the Grade 12 Google Classroom. Information about awards, bursaries, and scholarships will be posted for you to review.

Your Guidance Counsellor can also provide you with additional information about financing your education.
