Our Program

Because fashion is an international business, Humber's Fashion Arts diploma program places an emphasis on retail operations from both domestic and international perspectives. You will study marketing, store planning and merchandising, brand management, cosmetic marketing, event planning, and retail buying. You'll also learn fashion trend forecasting, sales techniques, and colour and styling analysis, while attaining basic knowledge of fashion products and fashion promotion. These skills are then applied to product launches, planning merchandise assortments, styling fashion shoots and the production of fashion events.

Our advisory committee provides regular review and input of curriculum ensuring our program is always on the cutting edge of industry developments.

In first year, courses in the business of fashion – marketing strategies, product knowledge, trend forecasting, web merchandising – give students an overview of this multibillion-dollar industry.

overview of this multibillion-dollar industry.

In second year, build on the skills developed during the first-year foundation – wholesale sales, retail buying and operation, photo styling, and event planning and budgeting.

Your Career

Fashion is a major industry in Toronto. According to the Toronto Star, retail alone generates annual sales of \$2.6 billion in the Greater Toronto Area's (GTA's) 4,600 fashion stores. A fashion career offers numerous and varied opportunities. Work as a buyer, associate buyer, planner, distribution marketing manager in retail or mall management, or an account manager in cosmetics. Work in wholesale as a sales agent in apparel, accessories or cosmetics. Our graduates can also pursue careers as fashion and trade show co-ordinators, shopping centre marketers, visual merchandisers, merchandise allocators, buyers, and marketing assistants to fashion designers and manufacturers. Those who prefer the freedom of self-employment may find opportunities such as freelance photo styling, image consulting and event planning.

Thinking about college as a stepping stone towards University study?

Most college programs now have agreements in place with specific Universities that allow transfer into specific University programs.

Meeting to Review the Online Application

We will be meeting again to review important details about completing the online application...

November 24th, 2016

Period 5

IMPORTANT NOTE: If you are applying to highly competitive programs, you should consider applying before this date. See your guidance counsellor if you need help.

FEBRUARY 1ST

Equal Consideration Deadline

An important date for three reasons:

- *applications received at OCAS on or before this date will be given equal consideration in the application process*
- *applications (or changes to program choices) received after this date are considered on a first come, first-served basis!*
- *colleges start making offers of admission on this date*

Highly Competitive Programs

- for some programs it is projected that the number of qualified applicants will far exceed the number of available seats available for the fall start date
- these programs have been designated by the colleges as ‘Highly Competitive’
- for these programs applicants MUST apply by February 1st

Highly Competitive Programs

Cont'd

- If applying to 'Highly Competitive' programs, students are encouraged to apply as early as possible as there are often enough qualified applications received by February 1st to fill the program
- Typically there will be additional steps you will need time to complete in the application process (e.g. interview, portfolio, etc.)
