

CONSTRUCTION UPDATE

September 15, 2014

At the present time work is progressing on schedule. The roof is slated to be complete mid- to late next week, i.e., Sept. 17th – 19th, as long as the weather holds. Once the roof is on the building will be completely watertight and the floor of the second floor can be completed. The kindergarten rooms will be ready for occupation when the floor of the second floor is ready. Again, depending on the weather, we are hoping for the end of September/first week of October. Teaching and learning in those classes located in the gym and library is continuing just as it is in all classes. If you have any questions, please be sure to call the office and I will return your call as soon as possible. Thank you, Lynne Cohen.
