Message From the Principal

Dear Thornlea Families,

I would like to thank Laurie Herman for helping us out in the office. Ms. Herman has filled in as our Vice-Principal since November and she will be missed by our students and staff. In her place her position will be covered by three of our teachers Ms. Salsberg, Ms. Estafanos and Ms. Gord until the end of the school year. We are relieved that we have completed the grade ten literacy test and are now preparing for EQAO math test which takes place toward the end of June. I would like to congratulate our chemistry students and their teacher Dr. Manivannan for their work on the chemistry competition hosted by the University of Waterloo. We had several students place at the very top as they competed with students all over Canada.

At school this week our spring sports are coming to an end. I would like to congratulate the Girl's 7 a side rugby team that had a great year. They finished second and won the silver medal on Wednesday. The Boy's sevens team also had a strong season winning their last two games of the season. Our athletic program comes to a conclusion with our annual athletic banquet which is returning this year after a two year absence due to Covid. The event takes place at the Shangri La Banquet Hall on June 15th between 6:00 and 11:00 p.m. thanks to our athletic committee and Mr. Hutchison for organizing the event. Our senior school play is taking place in theatre 219 this year and the Final show is on Friday night at 8:00 p.m. Our grade 9/10 drama class will present their show on June 23rd and June 24th tickets are \$5. Hope to see you there.

The school year is rapidly coming to an end. This semester as in first semester there will be no final exams at Thornlea. Instead there will be culminating projects and ISU's that will take the place of exams. Our teachers will be reaching out to our students and their parent/guardians to make sure that they have handed in all outstanding work and will be working with students individually the last week of school to complete all missing work. In addition our student success teacher Ms. Estafanos and the staff in room 213 (TLC) are also available to help with end of school assignments. This Friday June 3rd Thornstock takes place outside on our playing field from 11:30 to 3:00 p.m.

Warmest regards,

Joe Foti

The Thornlea girls rugby team started practicing in March after a 2+ year pandemic driven hiatus. The girls were rugby hungry, and so were their coaches. With 28 girls on the roster (2 teams), they plugged away at their skills and fitness in early morning practices for almost 6 weeks before finally facing opposition. In their first game of the season, they faced St. Maximilian Kolbe CHS, a school known for their strong rugby programs. Both Thornlea teams battled hard, but narrowly lost their games. On May 31, at the YRAA Championship, Thornlea was given an opportunity for a rematch. The Thornlea Tier 1 team showed up strong and beat St-Max Tier 1 in an exciting semi-final, putting them in the YRAA Final. The Thornlea Tier 2 team faced St. Max Tier 2 as their last game of the season, and although the score went back and forth, Thornlea played with so much heart and finished on top, ending the season with a well-deserved win! Thornlea Tier 1 battled a very tough Bill Crothers SS team in the YRAA Final, and finished with a silver medal. Thornlea Rugby is saying goodbye to 19 graduating players this season- you will all be missed!! Congratulations to both teams on a very unique and memorable season. Coaches Ackerman, Bendavid and Heather couldn't be more proud!

Chem 13 News Exam by University of Waterloo:

On May 13th 2022, Thornlea's grade 12 chemistry students from Dr. Manivannan's class had an opportunity to test their chemistry skills and knowledge with other students and high schools across Canada and worldwide by writing the Chem 13 News Exam, a challenging online exam conducted by the University of Waterloo. We are thrilled to announce that our students performed exceptionally well, and out of the 18 students that took part in the exam, we secured the first 15th places in the Thornhill City ranking. While first 10 high achieving participants earn Certificate of Distinction from University of Waterloo, the 5 top performing students in addition are receiving a limited-edition plaque featuring an element from the university's [Timeline of Elements poster](#).

We are happy to announce that our students placed 2nd (94.38%), 3rd (93.75% -score is tied), 24th (81.25%) and 67th (70%) in Canada. More interestingly, out of the 1340 participants from around the world, our top 5 students hold the 7th, 9th (2 students), 111th and 232nd places in the world. Late/Missed Assignments

Students are responsible for providing evidence of learning within a timeframe specified by the teacher, and in a format approved by the teacher. There are many supports available to help students with assignment completion. Students should understand that there will be consequences for not completing assignments for evaluation or for submitting those assignments late. Our Student Success Team is here to help.

Our Students Success Team is made up of a school administrator, student success teacher, guidance counselor, special education teacher and other educators (i.e. literacy teacher, math teacher, ELL teacher, CYW). The Student Success Team meets regularly to provide extra attention to students that need it, review data and determine next steps.

If you need to get in touch with us please email our Student Success Guidance Counselor:

College and University Applicants

- Graduating students who plan to attend college or university in September should continue to check their OCAS and OUAC accounts and their email on a regular basis. College bound students should have received a response from the colleges that they applied to and can expect to receive communication about payment of fees, with mid-June being the earliest that colleges can require payment of tuition fees.
- A reminder that all offers are **CONDITIONAL** upon the receipt of final grades in July – students should continue to work hard to ensure the required final average.

Systemic racism and oppression are not new concepts, and yet, racial inequities have been exacerbated and brought to the forefront during what has been experienced collectively as a time of great isolation and suffering. While this webinar has a focus on anti-Black racism, it can also help to support a larger understanding of racism, bias and stereotype, and their impacts on our individual mental health and community well-being.
