Google Takeout for Graduating Students

Student access to their Google Workspace for Education account will end upon graduation. Students are reminded to move their files and documents before they leave the school board.

***Due to the size of some Drives and the potential time to create the zip file, it is recommended that students and staff not use a public/school computer to complete this process.*

Visit [Google Takeout](#) and login with your YRDSB Google Account.

1. Select the Google Apps and Services from which you want to export your data and documents, and select the option to receive the file as a download via email (depending on the size of your Google account, this could take several hours). Use the .zip file option.
2. Once the Google Takeout email arrives, use the links to download your archived data and documents to your chosen location (e.g. personal computer, USB/external drive and/or personal Google Drive).
3. You can "unzip" the archives and then upload the data and documents to a personal Google Account or use the files and documents in Microsoft Office or other application
