Career Cruising and Secondary Online Course Selection

Career Cruising is an interactive career guidance and pathways planning tool designed for people of all ages. The tool can help students to explore different career options, manage course selections online--and plan various pathways to meet the requirements for their desired career path.

Grades 6-12 students are directed to sign into the site with their district assigned account. The portfolio username for students is yxxxxxxx where xxxxxxxx is the student ID. When logging in for the first time the password will be the student's birth date using the format mmddyyyy. The system will prompt the student for a new password after successfully logging in the first time. All students will start their portfolios from scratch in Career Cruising. Students from Grades 8 through 12+ will perform their course selections through the Course Planner module on the Career Cruising site.
