# COURSE TYPES IN GRADES 9

## SNC1W1

### DESTREAMED

- Course is not separated into academic or applied streams
- Will prepare students for university, college, apprenticeship & workplace pathways

## CGC1D1

### ACADEMIC

- Working at, or above grade level
- Theoretical and independent approach to learning with a focus on critical thinking skills

## MAT1L1

### LOCALLY DEVELOPED

- To be selected in consultation with your teacher(s) and family.

## ADA1O1

### OPEN

- Available to all students
- An opportunity to explore an area of interest for all students

# FRENCH AS A SECOND LANGUAGE

French is a compulsory subject, mandatory from Grades 4 to 9. Students are encouraged to study French in Grades 10 to 12

**FSF1D1**

**FSF1O1**

For students with little knowledge of French or without the 600 hours of core French from elementary schools.

# DESTREAMING PLAN

**AS PART OF THE MINISTRY OF EDUCATION'S DESTREAMING PLAN, ALL COURSES ARE ONLY OFFERED THROUGH ONE COURSE TYPE**

“As part of the Ministry of Education’s de-streaming plan, secondary schools in Ontario offered a new grade 9 Math course in September which took the place of both Grade 9 Academic and Applied Math. The Ministry recently announced that a new de-streamed grade 9 Science course, which will replace the current grade 9 Academic and Applied Science courses, will be implemented in September 2022. Additionally, the remaining Grade 9 Applied courses (English, French and Geography) will no longer be offered in the next school year. This means that almost all grade 9 students will be taking Academic programming in these subject areas with the exception of a small percentage of students who may take Locally Developed courses.”

# GRADE 9 CORE COURSES

**Physical Education**

**Girls  
PPL108**

**Boys  
PPL109**

**Co-Ed  
PPL101**

**French**

**Academic  
or open**

**Geography**

**Academic**

**Mathematics**

**English**

**Science**

**Can be De-streamed or locally developed**

# What's the difference between de-streamed and locally developed?

- Locally Developed courses support the needs of students who have been receiving significantly modified programming in Grade 8.
- Locally Developed courses are offered at the Grade 9 and Grade 10 level in some schools in the areas of English, Math, Science and/or History.
- Students in Locally Developed courses learn content that is connected to everyday life.
- Programs at college and university with a high school mathematics course requirement will not accept courses in this pathway for admission.
