- **Learn in an affirming, identity-centred environment that celebrates Black excellence**
- **Build a multi-year learning pathway that supports academic and career achievement**
- **Earn secondary credits while exploring post-secondary options**
- **Access mentorship, Black community partnerships, and university-level experiences**
- **Become eligible for a Schulich Certificate and Fall York University course**

Program Eligibility

- **TAS20 and ENG2D are open to students of all social identities and offer a chance to explore Afrocentric ways of knowing while building understanding of Black brilliance, histories, and narratives.**

SPECIAL EDUCATION @UHS

edSPECIAL EDUCATION Students, Parents and Guardians: Thinking about, Applying to and Planning on Attending Colleges and University

edSPECIAL EDUCATION Students, Parents and Guardians:

Thinking about, Applying to and Planning on Attending Colleges and University

Assistance for Special Education extends beyond High School in both College and University. Access to Special Education services in College and University is **very different than high school**, after accepting a program students must **self advocate** and **register themselves** with the appropriate offices **AS EARLY AS POSSIBLE**.

Once your child has received their acceptance and indicated they will attend they should be reaching out to the College or University right away! **DO NOT leave it until the fall** as doing so could leave them without accommodations in their first semester!

Colleges and Universities **require students to provide copies** of relevant documents (IEP, psycho-educational assessments, medical documentation, etc.). In some cases additional documents or testing may be requested.

The **language** used in Post Secondary institutions also differs greatly from high school, there are no IEPs (Individual Education Plans) and instead students are provided **Letters of Accommodation** that they must share with their Instructors and Professors. The accommodations provided at the College and University level may be significantly different than those received in high school.

There are **programs offered the summer before students start** at some institutions to help students transition to post secondary and gain an understanding of how Special Education services will work for them.

To learn more about how to access services at the Colleges and Universities your child is interested in or attending please visit: <http://www.transitionresourceguide.ca>
