

Abbreviated MLA Works Cited Format (Bibliography)

Include all available elements in the order given below:

For more information see: MLA Works Cited and Embedded References (complete document)

Authority(s) (eg. Author). **“Part of Complete Work”** (eg. “Article Title”). **Title of Complete Work** (eg. Title of Publication or Website). (**Medium - if required to avoid confusion**) (eg. DVD). **Location :** **Publisher / Producer / Distributor** (eg. Toronto : Random), **Copyright Date** [n.d. if no date] : **Pagination** (eg. **Pages** used (or) **URL** (or) Document ID **doi:xxxxx** if online followed by month and year accessed). [if URL or DOI then do not use the colon “:” before the pagination field]

- skip any unavailable elements and proceed to next element
 - hanging indent (first line not indented but subsequent lines are)
 - surname first for author name
 - alphabetize by first entry
 - use quotation marks "... " around article/essay title
 - underline main title
 - **The bibliography is then arranged alphabetically by the first available element**
-
-
