February is Black History Month

https://iamdogibson.com/

Over the course of next week, WRPS will continue to celebrate Black excellence in daily programs and through the virtual morning announcements which will included a focus on:

Viola Desmond

Tracy Moore

D.O. Gibson

Jean Augustine

Elijah McCoy

Our school will be having a visit from Hip-Hop artist and speaker Duane "D.O." Gibson on Tuesday February 13, 2024!

Gibson is a Guinness World Record-setting rapper who has visited thousands of schools since 2001. He will be delivering his Black Canadian 365 program, which has been profiled in Globe and Mail, City TV, Entertainment Tonight Canada and more.

In this program, Gibson talks about Viola Desmond, who stood up for her rights by sitting down at a movie theatre in Nova Scotia. He will delve into Bob Marley's Canadian connection and the story of how Black Canadians migrated to Sierra Leone. The presentation is interactive, and he gets the students rapping along – even in a virtual space!

Congratulations to Mme Walls' class for getting 'Bingo'!

New Grade 7/8 Mental Health Literacy Modules Support Student Mental Health and Well-being

This fall, the Ministry of Education has introduced a series of three modules per grade to support the **existing mental health literacy expectations** within the grade 7 and 8 **Health** and **Physical Education** curriculum.

This series of three 40-minute modules per grade will be delivered by educators to support the existing mental health literacy expectations within Strand D of the Health and Physical Education curriculum. They're not new learning – they offer ways to enhance the delivery of the existing curriculum and focus on mental health literacy.

This learning will help equip students with inclusive, culturally responsive, evidence-informed knowledge, skills, and strategies to support their mental health and well-being.

There are important reasons to bring these modules into the classroom:

- Students want to learn more about mental health at school.
- This learning helps students develop skills that support positive mental health.
- Mental health learning supports learning in all other areas.
- This learning can encourage conversations and help students in need reach support.
- As caring adults in the lives of young people, we want students to be well.

Here is an introductory video that provides more information
